

source/queue.h

```
graph TD; A[source/queue.h] --> B[stdbool.h]; A --> C[hardware.h];
```

The diagram illustrates a header file dependency. At the top, a box labeled 'source/queue.h' has two blue arrows pointing downwards to two separate boxes below it. The left box is labeled 'stdbool.h' and the right box is labeled 'hardware.h'. This indicates that 'source/queue.h' includes both 'stdbool.h' and 'hardware.h'.
